

Lecta announces 8-10% CWF, UWF price increase

BRUSSELS, Jan. 21, 2021 (PPI Europe) - Lecta has revealed plans to lift prices for coated woodfree (CWF) and uncoated woodfree (UWF) paper. The group said it will increase levels for all double-side CWF and UWF grades in sheets and reels by 8-10%, attributing the move to rising raw material, manufacturing and logistics costs.

“The increase will be effective for all new and existing orders with confirmed deliveries as of March 1, 2021 or later, both in Europe and overseas markets,” Lecta said in a statement.
